

## MY AUTO-BIOGRAPHY

I am a quiet girl who seems shy at first. I love to draw. My name is Jayde. I live with two moms named Carol and Ellen. I have one dog, one bird, a hundred snails, and a snake.

I don't remember that much in China. But I used to live near New York. We used to go on nature hikes and in the winter we play in the snow. When it gets moist outside we go looking for salamanders.

I love to draw fantasy creatures and dragons. When I was seven I drew animals with armor.

My mom got my bird when he was a baby. When he is happy he likes to count. My dog is very lovable and my snake is very old. My mom when she was a little younger was a doctor. My other mother works on her computer and takes pictures. They both give me a lot of freedom.
